agency Management Agency, and intelligence and law enforcement offices and other agencies.

General e-mail, info@mwrbr.gov

Independent board of scientists and engineers appointed by the president to review, evaluate, and report on Energy Dept. development of waste disposal systems and repositories for spent fuel and high-level radioactive waste. Oversees siting, packaging, and transportation of waste, in accordance with the Nuclear Waste Policy Act of 1987.

General e-mail, phmsa.hmhazmatsafety@dot.gov

Issues safety regulations and exemptions for the transportation of hazardous materials; works with the International Atomic Energy Agency on standards for international shipments of radioactive materials.

### RENEWABLE ENERGIES, ALTERNATIVE FUELS

#### General

**AGENCIES**

General e-mail, eereic@ee.energy.gov

Develops and manages programs to improve foreign and domestic markets for renewable energy sources including solar, biomass, wind, geothermal, and hydropower and to increase efficiency of energy use among residential, commercial, transportation, utility, and industrial users. Administers financial and technical assistance for state energy programs, weatherization for low-income households, and implementation of energy conservation measures by schools, hospitals, local governments, and public care institutions.

**Energy Information Administration (EIA), (Energy Dept.), Coal, Nuclear, Electric, and Alternate Fuels, 1000 Independence Ave. S.W., #2H073, EI-50 20585; (202) 586-2800. Fax, (202) 287-1933. Scott Sitzer, Director.**

Web, www.eia.doe.gov

Prepares analyses on the availability, production, costs, processing, transportation, and distribution of uranium and alternative energy supplies, including biomass, solar, wind, waste, wood, and alcohol.

**CONGRESS**

For a listing of relevant congressional committees and subcommittees, please see page 228 or the Appendix.
